# Dispense Assist Local Copy install instructions.

To begin the installation process of the new Dispense Assist application, click on the link "Local Download of Website" and save the file (DispenseAssist.zip) at the location of your choice.
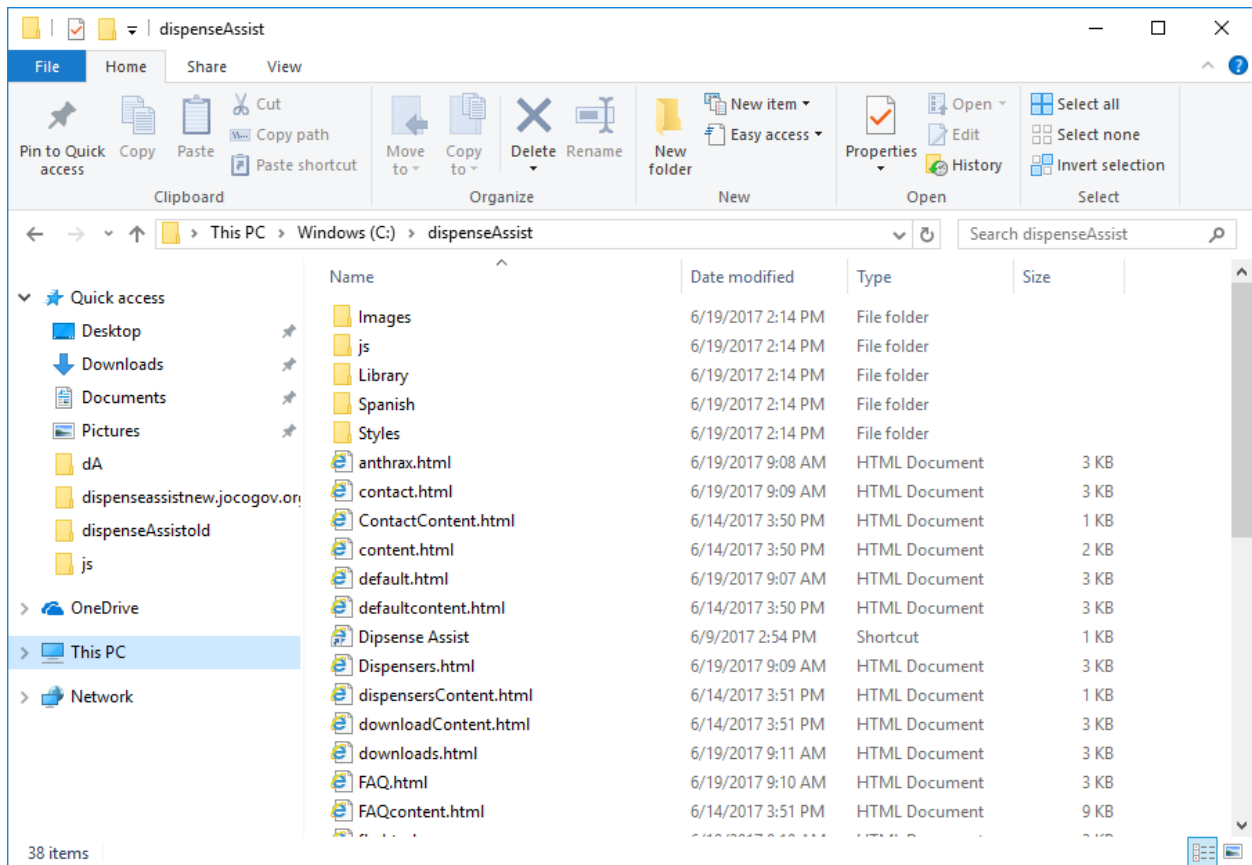

After downloading, Find the location of the downloaded file (DispenseAssist.zip) and right click the file and select "Extract All…"

When the below box appears, enter the directory location you wish the application to reside and click "Extract" button.

# Dispense Assist Local Copy install instructions.

After the extract is complete, a window with the application files will open.

From this location, you can double click the "default.html" file and the application will begin.  If you wish to have a shortcut on the desktop, right click on the default.html file and select "Create shortcut".  Find the "default.html – shortcut" file and drag and drop it on the desktop.  Hit F2 to rename the shortcut on your desktop.

## Internet Explorer Message

During the running of the application, you may get a message at the bottom of the browser in Internet Explorer saying "Internet Explorer restricted this webpage from running scripts or ActiveX controls".  If you get this, press the "Allow blocked content" button on the right.
